PROFESSIONAL SUMMARY

As an electronic engineer with knowledge about electronics and burgeoning expertise in Flutter development, I bring a unique blend of technical proficiency and innovative problem-solving skills. With nearly six months of hands-on experience in Flutter Development, I have successfully contributed to the creation of robust and user-friendly mobile applications. I have expertise in MVVM architecture, REST API integration, complex UI building, and many more.

TECHNICAL SKILLS

Dart	Flutter	AWS
JAVA	Docker	Python
Firebase	Linux	GoLang

PROFESSIONAL EXPERIENCE

Together — **Feb 2024 – Jan 2025**

Flutter Developer

- Developed the 'Together' application a social app where user can host their events or attend new events.
- I have worked on integrating RESTful APIs, designing complex app flows
- I have worked on design UI and have also worked with Google Firebase to make the application more robust and least error-prone.

CRUV — **Aug 2023 - Aug 2024**

Flutter Developer Intern

- Developing 'CRAVER,' a food delivery application using the ONDC framework, focusing on designing complex UI and creating new features.
- Integrating Google Maps API and RESTful API to enhance the app's functionality and user experience.

VYAM — **May 2022 - Aug 2022**

Flutter Developer Intern

- Developed and enhanced the features of the application and added new features. Simultaneously I worked on the Admin Panel of the application.
